Real Estate for Sale.

THE undersigned will sell the following described Real Estate, situated in South Levant, in Penobscot County:

A single Saw-Mill, Lath and Stave Mill, nearly new, and in first rate repair.

A small Farm of about 28 acres of first rate land, all under good improvement, upon which there is a good house and barn, and out-buildings, and well situated for a physician, merchant or mechanic.

A farm of about 50 acres of good land, some 150 rods from the mill at South Levant, with a small house on the same, and some improvements; together with a number of smaller lots in the village, well situated for building lots.

Also a good farm of about 60 acres near Weston's Mills in Levant, with good buildings thereon, very pleasantly situated.

A tract of 672 acres of wild land in the town of Hermon, about nine miles from Bangor on the new County road recently located and now being opened, from Etna through Carmel and Hermon, to Bangor. This is an excellent tract of land for farming.

Also, a new and convenient house and lot in Bangor, near the Levant road, on Thomas' Hill, and near the Holland place.

The above property will be sold at good bargains and on favorable terms to purchasers. A portion of the purchase money will be required on the delivery of the deeds, and the remainder will be put on liberal time with notes secured by mortgage on the premises. A. A. WING.

PATENTS.

American and Foreign Office.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 22 State Street, Boston.

IN 1840 the subscriber was appointed by the Commissioner of Patents, Agent of the U. S. Patent Office, in accordance with the 10th Sec. of Act of '37.

Having relinquished the Agency for the transmission of Models, and adopted a more expeditious mode of sending them to the Patent Office, whereby a Patent may be procured about six weeks earlier, he continues to forward them free of expense—to prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings for Patents; and to render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of verbally explaining their inventions, and of consulting in respect to those matters, in general, of paramount importance in order to obtain correct specifications and claims. The experience of sixteen year's practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment. R. H. EDDY, Solicitor of Patents.

WASHINGTON, JULY 21, 1849.—During the time I occupied the Office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring Inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

Bounty Land---Pensions.

THE subscribers will pay particular attention to the prosecution of claims to Bounty Land to which all, whether militia or regular troops, who served for one month in the war of 1812 are entitled. By the act of Congress of September, 1850, those who enlisted, volunteered, or were drafted for one year and served nine months, are entitled to 160 acres of land—and those who enlisted, &c. for six months and served for four months, are entitled to 80 acres—those who served one month, to 40 acres. In the event of the death of the soldier, his widow or minor children are entitled to the bounty.

We will also buy the warrants and pay the highest prices, or at the option of the holder cause them to be located on the best lands of the United States at the West.

Terms moderate, and no charge made unless the claim is allowed.

WHITE MOUNTAIN STATION HOUSE,

Peabody River, Gorham, N. H.

THIS spacious and elegant establishment, just erected expressly to accommodate travellers to the WHITE MOUNTAINS, will be opened on the first day of July next.

This House is situated on the line of the Atlantic and St. Lawrence Railroad, in the valley of the Androscoggin River at the junction of the Peabody River, and the Moose River with the Androscoggin, and at the immediate base of the White Mountain Range, on the northeast side.

The confluence of these valleys at this point,—affords the most beautiful and imposing views of the Mountains in various directions, and a more expeditious and easy access to the summit of Mt Washington and other peaks, than can be obtained from any other quarter.

The House is but FOUR HOURS ride distant from Portland, and NINE HOURS from Boston, by daily railroad trains over the Eastern, Boston and Maine, and Atlantic and St Lawrence roads.

An excellent public highway, suitable for Carriages of all descriptions, extends from this House seven miles up the Valley of the Peabody river to the eastern base of Mount Washington. At this point a convenient public house is now erecting for the accommodation of persons ascending the mountains. The actual ascent on this side, can be accomplished with remarkable facility.

The valley of the Peabody River, in its entire length, passes along the whole eastern base of the range, affording very near and uninterrupted views of all the great peaks, and of the remarkable ravines and gorges between them. The valley of the Moose river affords equally near and most attractive views on the north side. Tourists and artists of the most competent taste have pronounced the scenery upon the northern and eastern sides of the Mountains, to be much more wild, rugged and truly Alpine, than any presented on the other sides.—Pedestrians can make the ascent of Mount Washington from the Peabody river, and return, in from 6 to 8 hours.

To facilitate the ascent, a safe and convenient bridle path is to be opened to the summit of Mount Washington. From the central position of this House, at the confluence of great mountain valleys, the finest drives can be enjoyed in all directions, upon good carriage roads, affording new and imposing views of the Mountains at every turn. The numerous mountain streams and lakes in the immediate vicinity abound in trout.

Six miles north of the House, upon the line of the Railroad, and accessible also by a carriage road are the celebrated BERLIN FALLS, on the Androscoggin, the most remarkable cataract in New England. The completion of the Atlantic and St Lawrence railroad to this station, opens an entirely new easy and cheap route to the Mountains, on the north and east side,—while the remarkable PINKHAM NOTCH, extending southward from this house, along the whole eastern base of the Range, affords a convenient access to the valley of the Saco, and thence to the celebrated CRAWFORD NOTCH. Tourists from all parts of the country will find this the most expeditious and agreeable route for visiting the Mountains.

There is no Stage travel on the Route. Passengers are landed from the cars directly at the house. The Railroad train from Boston and Portland every day, will afford constant communication to and from the mountains. The Proprietors of the House will make arrangements with the Telegraph Companies and with Longley's Express, by which despatches and other communications can be transmitted to and from all parts of the country for the convenience of visitors.

The House is large and commodious, constructed with great regard to architectural elegance, and with all the conveniences of a first class Hotel.—It has one hundred and eight sleeping rooms, and is newly and thoroughly finished throughout.

Families can be accommodated with suites of rooms.

The Proprietors having leased the House for a term of years, will do all in their power to promote the comfort and pleasure of their guests, and can promise a well supplied table, and clean and well ventilated rooms at moderate charges. In connection with the House is a large LIVERY STABLE, where good Horses and Carriages,—and Saddle Horses will be furnished at all times.

Also good Bathing rooms for the convenience of visitors.

Cape Cottage Re-opened.

ON the first day of May, this long celebrated MARINE VILLA, which with the Stables, Sheds, Bowling Alleys, &c., has been entirely rebuilt in a new style of architecture, fitted to the scenery of the neighborhood, was re-opened for summer boarders and transient company, on all days (Sabbaths excepted) when no transient visitors will be received on any account,)—the intention of the subscriber being to establish for the House a high character, so as to engage the hearty co operation of all who may need repose, refreshment, sea bathing, pleasant drives and walks boating, fishing, bowling, &c. &c. Being built on the outer shore of Cape Elizabeth, all open to the sea, with vessels passing and re-passing all hours, and nearly under the windows; the White Hills of New Hampshire in full view on one side, with the United States Forts, water batteries, harbor and shipping of Portland city and the broad ocean on the other, CAPE COTTAGE has long been regarded as one of the most beautiful and picturesque watering places in the world. By the kind notice of Mr. George Combe, in a book of travels in the United States, who spent a summer at this place, it has acquired a high reputation abroad.

The location is all that can be required for resort to the invalid or persons for pleasure; and the subscriber will not fail in his endeavors to make it in all respects deserving of the public.

P. S. Being only three miles from Portland, conveyance can be had at any time.

John S Sayward, Editor

MONDAY, JUNE 30, 1851.

☞ The rapid progress which mechanical science and art are making in our country has strongly marked this feature upon society, that the young men of good practical skill and acquainted with mechanical science, are sure to find desirable situations in life. Capital is every where reaching out in search of men of science and practical business habits and capacities and whose integrity can withstand any assaults. The merely professional man now cannot, as formerly, from the reputation of his profession monopolize entirely the higher places of trust or secure the highest salaries but instead of this he is often found laying aside his profession for stations in the practical business of life where he may perform higher uses for the benefit of society and his own income. Men need thorough education and discipline now, not so much to engage in the professions as to work as an engineer or business director in some of the business circles. It is not the orator now who stands ahead for all have become public speakers in these days, or at least are called upon to speak in public and succeed with general good success but it is the engineer who now leads in society and to whose nicely adjusted calculations all give their most earnest attention. The active world is earnest ly wrestling with nature to subdue her to its plans, and purposes and profit. In this struggle the engineer and the mechanic occupy prominent positions in pushing forward improvements and in developing human hopes and human progress. The men of practical science and mechanical art—the builders of factories, the projectors of railroads and steamboats the creators of steam engines and the skillful mechanics are the men upon whom the strong current of this world now centers and honors and rewards as its heroes.

There is something of encouragement to the young men of our country in the change which has been wrought, in regard to the uses of knowledge and to the demand for practical men. It imposes obligations upon them to fit themselves for the new position of affairs and the new state of society. The humblest apprentice boy should look forward to the time when he shall be called to assume the station of responsibility and should faithfully labor in the acquisition of such scientific knowledge as will enable him honorably and profitably to discharge the new duties imposed. Men of higher attainments in science men of keener perceptions and of more artistical skill and of severer accuracy and of unwearying constancy are demanded. In the new race which society is running the men of slow movement or slovenly habits of calculation must give place to those of higher development. Ability, skill, onward power these are what men must rely upon not family no parchment no money. Character is what is needed not reputation to be is the true thing, not to seem.

It is to us one of the most gratifying features of the times that so large a measure of success attends the earnest, persevering and intelligent mechanics of the country. In all parts of it they may be found owning and occupying dwellings of ease and comfort, and have the means through our admirable system of Free Schools of giving a good education to their children, while they themselves occupy positions of influence and honor.

There is a use still for the professions to perform and they should be as earnest for improvements in their departments as any can for improvements elsewhere. But the masses are particularly and personally interested in the practical and business pursuits and advantages, and to such we address the word of hope and would inspire with the courage of action and the heroism of unblinking integrity for without these they can neither deserve or expect advancement or prosperity.

East Maine Conference Seminary.

Several years since, the Methodists of Maine with the help of those friendly to that denomination succeeded in establishing a school for the education of young gentlemen and ladies at Kent's Hill Readfield, bearing the familiar name of Maine Wesleyan Seminary. This Seminary has ever sustained a high reputation among our institutions of learning and has sent forth a noble band of useful men to bless the world—many of whom are now an honor to our different professions, halls of legislation and other stations of high responsibility. For some few years past they have contemplated establishing a similar institution somewhere in the more eastern portion of the State.

We are glad to learn that they have now undertaken this work in earnest. A beautiful site has been selected at Bucksport, eighteen miles down the river from this city. The main building is now in process of erection, and it is intended to open the school early the coming fall. The building stands upon a beautiful eminence in the midst of a fine grove, opposite the new fort now building by the U S Government, and is the first object to meet the view as you approach the village of Bucksport in ascending the river. It stands upon ground long since consecrated to hallowed purposes, as the site of the first church built in Bucksport in which "Parson Blood" preached for years to the people of that village.

Nothing appears more promising for our country than the efforts made for a thorough education of youth and the general dissemination of knowledge and we have but little doubt that this seminary of learning will do more for the perpetuity and prosperity of our government, with all its valuable privileges, than a score of forts like that building upon the opposite side of the river! As civilization and christianity advance, the demand for the latter is diminished while that of the former is increased, and when the weather beaten ruins of the national fort may serve only to tell of barbarous practices of past ages, this institution of learning may be sending forth streams of knowledge to fertilize the intellectual world. A more pleasant location, or one affording students better privileges or purer society, probably, could hardly be found in Maine. Bucksport is a central point, easy of access at all seasons of the year, and this Seminary, when opened cannot fail of presenting many attractions to those anxious to qualify themselves for usefulness.

To place it upon a firm basis and raise it at once above all embarrassments will cost an effort and afford the friends of education another opportunity of manifesting their interest in the prosperity of our country. The people of Bucksport as we understand, have already contributed liberally for this object, and something has also been done by its friends in this place.

At the last session of the East Maine Conference of the M E Church, held at Searsport the Rev C D Pillsbury was appointed agent for this institution. He will devote his whole time during the present year to its interests—His principle business will be to travel through that portion of our State east of the Kennebec River, soliciting funds for the completion of the buildings furnishing necessary apparatus, &c. Mr Pillsbury has spent the two years last past in this city as Pastor of the Summer Street M E Church and is highly esteemed by his society and numerous acquaintances. His family, we learn will still remain in the city. We bespeak for him a cordial hearing and commend him to the confidence of the people wherever he may go. We have no doubt the liberality and public spirit of the connection will be awakened, and that they will readily and cheerfully respond to the calls made upon them for the accomplishment of so worthy an object.

Sable Harmonists. This celebrated band of musicians has arrived in town and will favor our citizens with concerts on Wednesday, Thursday and Friday evenings next. The St. John Observer says, the concerts which this band has already given have been well patronized, and those who have attended them have been amply repaid. The performances of this company are admirable and nothing offensive is introduced to detract from the pleasure which each unavoidably receives in witnessing them. The music is new, and their singing and playing in fine taste and harmony. Their jokes are well conceived, and exhibit a great deal of true wit, and in their character of negroes they are perfect personifications of plantation darkies. This company in fact, is superior to any one of the kind that has ever visited this place, and we advise every body to go and see them.

Slave Trade.

The Brazilian Government is now taking active measures for the suppression of the Slave Trade. A correspondent of the New York Express under date of May 12 says:—Since my last, vigorous measures have been taken by the Government to demonstrate to the world that they are determined to put in putting down the slave trade in reality as well as in name. The Brazilian war steamer Thetis the other day gave chase to a slave schooner, which succeeded in landing her cargo of about 160 slaves at the port of Itabapoana. The junior officer commanding a small detachment on that part of the coast was offered $0,000 by the smugglers, which he refused, and took possession of the blacks, who were brought with him to this city. The name of a recently created Portuguese baron is mentioned as connected with this affair and if it can be proved that he is compromised, the rigor of the law will be enforced.

☞ For good reasons we must decline publishing Sawney's communication. Mikos' remarks were in very general terms, and of course would not apply to any medical practitioner of merit. We have no partiality, and are quite willing to see every one stand upon his own merits, but we desire to avoid giving place to anything of a personal nature of which Sawney's article a little too strongly partakes. Furthermore we have no acquaintance with Sawney, either personally or otherwise which of itself would be sufficient to preclude an article of this nature from our columns.—No one can fail to see the propriety of this course.

☞ The corner stone of the new Catholic Cathedral was laid at Pittsburgh a few days since with appropriate ceremonies, by Bishop O'Connor. The dimensions of the new church are as follows: greatest length 215 feet, greatest width of transept 131 feet, width of the main building in the clear 100 feet, height of dome over the floor 130 feet, height to top of big cross 195 feet, height of tower to cross 200 feet, width of front 118 feet, depth of Sanctuary 42 feet. There will be four side chapels each having an altar.

☞ A stock of winter rye was taken from the field of Mr D Wheeler, of Brewer, by a gentleman on the 25th, inst., and handed to us, which measures over seven feet in length.

☞ A catamount, which attacked two men recently on the bank of the Mississippi, was caught by one of the party by the throat and choked to death.

☞ We publish below the resolutions of the Vermont Whig State Convention held at Bellows Falls. The Convention unanimously nominated the present State officers for re election. The Convention was very fully attended.

Resolved, That we see no occasion to change or modify the fundamental principles by which our course as a party has heretofore been guided, but that on the contrary, we have in the history of the past, good evidence of their correctness and of their indispensable importance to the highest welfare and prosperity of the State and of the Union.

Resolved, That, as leading measures of national policy, we are in favor of a tariff of specific duties so levied as to afford protection to American labor in all its branches, of judicious appropriations by the Federal Government for the improvement of the Rivers and Harbors of the nation as the wants of our foreign and Domestic Commerce shall from time to time demand, of a judicial system that shall be safe and at the same time practicable and convenient, which lawfully carried out of a liberal policy towards actual settlers in the disposition of our public lands so far as is consistent with justice to the older States, of an economical administration of the Government and of a faithful observance of the Constitution in all its parts according to the spirit intended by its framers.

Resolved, That as regards the institution of Slavery as a moral and political evil, for the existence of which in the several slave holding States we are in no manner accountable and that beyond the limits of those States, we are opposed to its extension or countenance under the authority of the Federal Government.

Resolved, That the enactment familiarly known as the Fugitive Slave Law, is in our opinion, a matter of ordinary legislation—open at all times and on all occasions for discussion and liable to be modified or repealed at the pleasure of the people, as expressed through their representatives. that it is justly objectionable in some of its provisions and while we cheerfully admit our obligations to obey it as a law of the land designed to fulfil a requirement of the Constitution we equally insist upon our rights to use all lawful means to secure such modification of it as time and experience may demonstrate to be proper.

Resolved, That we are, as we ever have been, devotedly attached to the Union, that we look to the Courts of the United States for the true interpretation of the Constitution and laws of the Union, confiding in their wisdom and fidelity; and that we have no sympathy for reformation for the revolutionary doctrines of secession on nullification, or disunion in whatever quarter manifested.

Resolved, That in the moderate, discreet, and practicable measures recommended to Congress by the present National Administration, and their firm determination to repress the national order execute faithfully the laws of the land and maintain inviolate the faith of public treaties we recognize measures and principles to which we give our cordial approbation, and pledge a hearty support.

No expression or preference was expressed in regard to the Presidential nomination but there can be no doubt as to the good old State of Vermont—she will give her unanimous support to the nominee of the National Convention.

Fire in Brewer

About 11 o'clock on Saturday evening a fire broke out in Brewer in the cabinet shop owned by John Holyoke and occupied by John Thompson. The loss we understand is about $1700 no insurance. The dwelling house of Mr Holyoke standing near, was also somewhat injured. The fire companies from this city were promptly on the spot and speedily checked the progress of the fire.

We would advise our Brewer friends to get up a fire company and procure an engine with 1000 feet of hose for the safety of their property.

☞ Gov Johnson, in his speech to the Pennsylvania State Convention, strongly advocated the principle of protection. The whigs of Pennsylvania indeed a great majority of the people are strongly in favor of a protective tariff and will manifest their desires in no unmistakable way at the next election.

National Conventions

The Liberty Party National Convention will be held at Buffalo Sept 17th and 18th and the National Convention of Reformers and Working men (The National Industrial Congress,) will be held at Washington City on the first Wednesday of June 1852.

Lady Franklin. Recent advices from Europe state that the health of Lady Franklin is exceedingly precarious—her terrible state of suspense and anxiety is rapidly wearing away her life.

☞ Alexander C Bullitt Esq has been tendered the Whig nomination for Congress, in the New Orleans District of Louisiana.

Powell, the murderer, at the last advices, was expected to arrive at Cincinnati where the Italian residents in the city would honor their countrywoman with a torchlight and serenade.

Money, Trade and Commerce.

Boston Money Market.

The money market is gradually returning to an easier condition, the demand for temporary loans abating, and the supply of capital increasing. At no time during the slight contraction noticed for the last ten days, has mercantile paper sought street negotiation to any extent, and the stringency has hardly been felt beyond the circle of stock operators. Quotations range from 7 a 9 per cent, in general transactions.—Boston Journal of Friday.

Corn is slightly firmer, 15,000 bushels sold at 58 a 58½ for mixed Western, and 60c for yellow. Oats better. Nothing doing in provisions.

SALEM, June 27

A violent thunder squall passed over Beverly and Salem last night the wind blowing almost a tornado. The lightning struck one of the sign boards on the Eastern Railroad, in North Beverly, and completely shattered one of the posts tearing it to shreds within three feet of the ground. It also passed along the telegraph wire some hundreds of feet each way, splitting the posts and destroying the insulation.

In one instance the iron spike in the top of the post was driven down to within four feet of the ground splitting the post into three parts and leaving the wire glass insulator in the middle of the post. Communication upon the line was interrupted for several hours.

Fire at Cincinnati.

NEW YORK June 27

A despatch from Cincinnati, this evening states that Butler & Brothers blacking factory, and pork houses of Scullay & Hughes together with several small buildings situated in Deer Creek Valley were destroyed by fire. Loss about $70 000, mostly covered by insurance. A quantity of pork and bacon was consumed.

DISTRESSING CALAMITY. Under this head a Western editor announces the birth of his ninth child.

Remarkable Adventure

In the absence of their parents, two little girls five or six years old one a daughter of Mr John A. Root, the other of Mr Hathaway, both of Haydenville undertook to sport on a raft above Hayden's Button factory. In the act of getting on the raft they pushed it from the shore and were carried over the dam where there is a fall of twelve or fifteen feet. As the raft rose to the surface a little hand was seen clinging to it, and a man plunged into the river seized the hand drew out the girl and found the other clinging to one of her feet. Neither sustained any serious injury.—Springfield Post.

To One Dead.

It cannot be that Death has set
Its signet on thy brow
And all that beauty Friendship claimed,
The cold Grave claimeth now,
For who of all earth's lovely ones
Was lovelier than thou!

Methinks I see thee as thou wert
In other days gone by
The long, dark lashes bending o'er
The deep expressive eye
Those tresses for an Houri tall—
Alas that thou should'st die!

That thou should'st die—while yet the low
Of youth was on thy brow,
And thy sparkling chalice brimmed high
With joys bewitching glow,
And the tide of life ran smoothly on,
With music in its flow.

Oh call it but a gentle sleep,
To dreams of rapture given
A sleep as tranquil pure and still,
As the first hour of even—
A sleep secure from every ill
Whose waking will be Heaven!

THE PILES!

A CURE FOR LIFE SECURED!

DR. UPHAM'S INTERNAL REMEDY FOR THE CURE OF PILES!

THE VEGETABLE PILE ELECTUARY, invented by Dr. A. Upham, a distinguished physician of New York city, is the only really successful remedy for that dangerous and distressing complaint the Piles, ever offered to the American public.

The Electuary contains no Mineral Medicine, no Aloes, Colocynth, Gamboge, or other powerful and irritating purgative. No fear of taking cold while using it; no change in diet necessary. If taken according to directions a *cure for life is guaranteed*.

[illegible] Electuary. New York, August 25, 1849.

Messrs. Wyatt & Ketcham—Gents: For several years past I have been troubled with piles, a very costive state of the bowels, [illegible] weakness of the system. But my complaint not being so severe as to disable me from business, and as I had employed physicians and patent medicines, [illegible] this Spring I never used any [illegible] physician for relief. [illegible] the Piles being then so severe that I allowed [illegible] advertisement of a cure guaranteed by the use of Dr. Upham's Electuary. I purchased three boxes at your store and for the use of which I found myself entirely cured of the Piles and my health much improved. I remain, yours, much indebted friend.

The writer of the above [illegible] declines having his name used, but authorizes us to refer to him or [illegible] those who may doubt its authenticity.

Any further testimony of the efficacy of Dr. Upham's Electuary. Philadelphia, Sept. 9, 1849.

Dr. Upham—Dear Sir: About five years ago I was afflicted with what was called Chronic Dysentery. I have suffered with it ever since, and physicians have told me that my liver was affected, and that my bowels were ulcerated, for blood and pus attended with a peculiarly putrid smell were the frequent discharges. A short time since I made a visit to Massachusetts, in [illegible] more severe [illegible] physician offered to cure me for $10 [illegible]. Happily in the midst of [illegible] your Electuary [illegible] I have perfect confidence in it [illegible] This gave me great confidence in its merits, and I purchased a box [illegible] procured to say everything in its favor, or render any service I can to humanity by ascribing to it [illegible].

Messrs. A. B. & D. Sands—Gentlemen: Last spring I was attacked with Rheumatism in the lower part of my body, extending down to my feet, and so severely was I afflicted that I could not stand or move myself. I tried all the different medicines advertised for this disease, among which were several kinds of Sarsaparilla, but [illegible] and I gave up all hope of being cured, when a friend advised me to try Sands's Sarsaparilla. I consented, not expecting it would cure me, but after using two or three [illegible] I have the happiness of stating to you that the pain has left me. I can walk without any assistance and I am going in a length every day, which I have not done in [illegible] owing to the use of your Sarsaparilla. Another Scientific Wonder!

DR. J. S. HOUGHTON'S Great Dyspepsia Curer!

THE TRUE

DIGESTIVE FLUID,

OR,

Gastric Juice,

PREPARED from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia.

This is a Great Natural Remedy for *Indigestion* and *Dyspepsia*, curing after Nature's own Method, by Nature's own Agent, the Gastric Juice. PEPSIN is the chief element or Great Digesting Principle of the Gastric Juice—the *Solvent of the Food*, the *Purifying, Preserving, and Stimulating Agent* of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an ARTIFICIAL DIGESTIVE FLUID precisely like the natural Gastric Juice in its Chemical powers and furnishing a *complete* and *perfect substitute* for it.—By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based is in the highest degree curious and remarkable.

BARON LIEBIG, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be *softened, changed and digested*, just *in the same manner as they would be in the human stomach*."

Half a teaspoonful of pure Pepsin infused in water will digest or dissolve *Five Pounds of Roast Beef* in about two hours, out of the stomach.

Dr. HOUGHTON'S PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

PRIVATE CIRCULARS for the use of Physicians may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is not a secret remedy, no objection can be raised against its use by Physicians in respectable standing and regular practice.

Price, in Fluid form ONE DOLLAR per bottle.

PEPSIN IN POWDER,

Sent by Mail, *free of postage.*

For convenience of sending to all parts of the country, the DIGESTIVE MATTER OF THE PEPSIN is put up in the form of Powder, with directions to be dissolved in water by the patient. These Powders contain just the same matter as the bottles and will be sent by mail, *free of postage*, for ONE DOLLAR sent (post paid) to Dr. J. S. HOUGHTON, Philadelphia, Pa.

☞ *OBSERVE THIS*—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa.

MORSE'S

COMPOUND SYRUP OF

Yellow Dock Root

OCCUPIES the front rank among the proprietory of Medicines of this country, for completely curing Canker, Salt Rheum, Erysipelas and all other diseases arising from an

Impure state of the Blood.

Also, Liver Complaints, Catarrh, Dyspepsia, Headache, Dizziness, Coughs, Soreness and Tightness about the Chest, Bronchitis or Hoarseness, Dryness and a tickling sensation about the throat, and is used with unprecedented success in all cases of

Female Weakness and General Debility,

Strengthening the weakened body, giving tone to the various organs and invigorating the entire system.

If the testimony of thousands of living witnesses from all parts of the country can be relied upon it is singularly efficacious in

CURING ALL HUMORS,

and restoring debilitated and broken down constitutions. It is *purely vegetable* in its composition and so accurately combined in its proportions that the chemical, botanical and medicinal properties of each ingredient harmoniously unite to

PURIFY THE BLOOD.

It has removed many chronic diseases which have baffled the skill of the best Physicians, and also cured Canker, Salt Rheum, Erysipelas and Scrofula, which Sarsaparilla syrups entirely failed to make the least impression upon.

It has been tested in many cases of

CANCEROUS HUMORS.

The most obstinate Cancers have been cured by its use alone. We say that it is a valuable medicine in all

BILIOUS COMPLAINTS.

It removes all obstructions in the circulation, rendering the liver free, active and healthy. It removes palpitation of the Heart and relieves in all cases of Asthma, and may be used at all times and in all seasons of the year.

This Syrup is prepared only by C. MORSE & CO., 10½ Fountain street, Providence, R. I., and sold by thousands in the United States, Canadas, etc.

THE

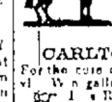

GENUINE BALM OF COLUMBIA

If you wish a rich, luxuriant head of hair, free from dandruff and scurf, do not fail to procure the genuine Balm of Columbia. In cases of baldness it will more than exceed your expectations. Many who have lost their hair for twenty years have had it restored to its original perfection by the use of this Balm. Age, state or condition appear to be no obstacle whatever; it also causes the fluid to flow with which the delicate hair tube is filled, by which means thousands (whose hair was gray as the Asiatic eagle) have had their hair restored to its natural color by the invaluable remedy. In all cases of fever it will be found the most pleasant wash that can be used. A few applications only are necessary to keep the hair from falling out. It strengthens the roots, it never fails to impart a rich glossy appearance, and as a perfume for the toilet it is unequalled. It holds three times as much as other misnamed hair restoratives, and is more effectual.
